

State/County Property Tax Administration Program

DESCRIPTION OF MAJOR SERVICES

On February 13, 1996, the Board of Supervisors approved an agreement with the State of California to participate in a state/county property tax administration program for 1996. The agreement provided a loan of \$2,139,938 for 1996, with a provision for the same in the following two calendar years. The state passed legislation extending this program through calendar year 2002.

Effective January 1, 2002, the State legislature approved authorization of AB589. This bill creates the State-County Property Tax Grant Program to replace the prior loan program. The grant is effective starting with the 2002-03 fiscal year and is authorized until the 2006-07 fiscal year. As with the prior loan program, these funds are intended to supplement the county's property tax administrative cost. The amount of the loan is set forth on a schedule established by the state and is anticipated to be the same as the previous loan program. Contingencies are used to set aside funds that are available from the state on a calendar year basis but are budgeted and managed in the county system on a fiscal year basis. The state's funding of this program has been put on hold for 2 years. The California Assessors Association has been working with the State Department of Finance to establish a replacement program to restore this vital funding source. The County Administrative Office is financing this program until the state resumes funding.

BUDGET HISTORY

In 2006-07, the appropriations and the resulting fund balance have been dramatically reduced due to the postponement of funding by the state. In order to maintain the workload the County Administrative Office has back-filled state funding with general fund contingencies to finance the program until the state resumes the funding. The funding enables the Assessor to complete all the workload as mandated in the Revenue and Taxation code.

In 2006-07, the department will incur increased costs to maintain current services, such as negotiated labor agreements, retirement, risk management, central computer and inflationary services and supplies purchases; and will incur decreased costs in worker's compensation. These costs are reflected in the Change From 2005-06 Final Budget column, along with changes related to department recommendations.

In 2006-07, contingencies and revenue from the state have been dramatically reduced due to the postponement of the Program. In order to maintain the workload the entire \$2,139,938 has been transferred from the county general fund to finance this program until the state resumes funding of this program. The funding enables the Assessor to complete all the workload as mandated in the Revenue and Taxation code.
